

Interactive Workshops

Impactful sessions that equip leaders with practical tools to drive better performance

Product Overview

JRA Interactive Workshops are 90-minute, highly engaging sessions designed for intact leadership teams or as part of a leadership development program. Each workshop focuses on translating critical leadership and organizational concepts into practical tools, frameworks, and strategies participants can apply immediately to improve performance and decision-making.

Topics and Themes:

Jack Ryan Advisory offers a curated library of workshop topics designed to meet the needs of leaders at all levels, including:

- **Ten Things Great Leaders Do** – Frameworks to elevate leadership impact with confidence and clarity.
- **Ten Things Great Teams Do** – Practical dialogue and tools to strengthen team chemistry and performance.
- **Setting the Bar High** – Ten things leaders can and should expect from their team.
- **Critical Levers Impacting Culture** – Tangible strategies to strengthen organizational culture beyond stated mission and values.
- **Linking Business and Human Capital Strategy** – Tools for aligning talent and organizational priorities to tangible business outcomes.
- **The Four Legs of Talent Retention** – Actionable approaches to reducing attrition and retaining key talent.
- **Leveraging Diversity as a Competitive Advantage** – Execution-focused strategies that drive sustainable superior performance.

Workshops can be customized to address specific leadership development goals or aligned with broader organizational initiatives.

The Outcome

JRA Interactive Workshops accelerate leadership capability and team effectiveness by providing leaders with frameworks, tools, and insights they can apply to real challenges. Participants leave equipped to make better decisions, foster stronger team collaboration, and drive better execution and operating performance.
