

Leadership Impact Snapshot

A concise, candid view of how your leadership is landing with your team with actionable recommendations

Product Overview

The **Leadership Impact Snapshot** is a streamlined assessment designed for CEOs and senior executives seeking a clear, objective view of their leadership impact. Built to be efficient and actionable, the Snapshot provides leaders with practical recommendations that enhance effectiveness, accelerate performance, and strengthen organizational alignment.

This offering is intentionally lightweight, providing high-quality insight without the scope or time requirements of a full executive assessment—while still delivering the clarity and depth that matter most to senior leaders.

What the Snapshot Provides:

- A concise readout of how a leader's behaviors, decisions, and leadership style are influencing the team's performance and organizational effectiveness.
- Optional integration of **validated psychometric assessments** (via PCI's suite of tools at pciassess.com) to deepen understanding of leadership tendencies, strengths, and risk factors.
- Objective insights grounded in targeted interviews and leadership reflection.
- Clear, practical recommendations that enhance leadership impact and strengthen execution.

The Outcome

The **Leadership Impact Snapshot** gives CEOs and senior executives a fast, insightful, and actionable view of their leadership effectiveness. It will lead to improved team performance and better operating results.
